

Job Title: Rotational Night and Day Registered Veterinary Nurse

Department: Nursing

Reporting to: Nursing Manager

About AURA Veterinary

AURA Veterinary is a centre for excellence in animal oncology and soft tissue surgery. Our daily focus is on delivering the best possible outcomes for the dogs and cats who are referred to us for treatment. We offer extensive clinical expertise and exceptional animal care, rooted in a commitment to uphold the highest standards in veterinary science. The facilities at AURA are state of the art and include four operating theatres, 160 slice CT scanner, C-arm fluoroscopy unit, Interventional Radiology suite, minimally-invasive surgical equipment, cystoscopy/endoscopy/bronchoscopy, chemotherapy suite, ultrasonography, digital radiography and full in-house laboratory

Job Description

The role of a rotational night and day registered veterinary nurse (RVN) is to work in a set pattern on both night and day shifts.

The night aspect of the role is a ward-based position and is vital in providing inpatient care within the hospital, within a small, dedicated night team. The day aspect will be a rotational position working through wards, theatre and imaging, and medical oncology. It requires the post holder to work as a member of the entire team to include the specialists, residents, interns, Senior RVNs, RVNs and auxiliaries.

It is essential that the post holder is driven and motivated to learn and develop their clinical nursing skills and knowledge to an advanced level. The role requires dedication and hard-work in order to ensure the delivery of the highest level of patient care.

The post holder will require strong communication skills in order to carry out their duties when interacting with the clinical team and the non-clinical staff to include the front of house team, finance team, facilities team and stock controller in order to promote the clinical flow of patients through all areas of the hospital. Communication with clients should be excellent to ensure that they are provided with all relevant information regarding the care for their pets.

Professional Responsibilities:

- Maintain RCVS registration as a registered veterinary nurse (RVN)
- Follow the Royal College of Veterinary Surgeons (RCVS) Code of Professional Conduct for Veterinary Nurses to include maintaining the five principles and the professional responsibilities in regard to animals; clients; the profession; the veterinary team; the RCVS; and the public
- To be familiar with your professional obligations in relation to the RCVS as a registered veterinary nurse and the VN Code of Conduct

- Comply with the nursing rota as communicated by the Deputy Nursing Manager and Nursing Manager
- Partake in weekends and bank holidays
- Deliver all aspects of inpatient care to a high standard dependent on individual patient requirements, including emergency and critical care
- Work with the Senior Ward RVN to organise patient flow on a day to day basis to ensure the most effective and efficient approach to ensure the workload is completed
- Assist the other nurses in the delivery of exceptional patient care not only to the patients you are directly responsible for but all patients in the hospital
- Work closely with the rest of the clinical team to facilitate the work flow of patients and provide solutions to any obstacles that may hinder the clinical flow of patients
- Communicate with the Senior RVNs, Deputy Nursing Manager and Nursing Manager regarding areas of high workload
- To provide consistent, clear, clinical and professional advice and duties and act as an exemplary RVN to all staff
- Demonstrate professional awareness and accountability in care according to the RCVS VN Code of Conduct
- Responsible for the guidance of the auxiliary teams in accordance with professional and RCVS standards
- To provide clinical training and mentoring to new nursing and auxiliary staff, and any other members of the clinical team working within the wards area
- Actively participate in and maintain continued professional development (CPD)
- Possess a desire to develop and advance clinical nursing skills and knowledge including emergency and critical care
- Work towards completion of your training manual in all aspects of patient care and across all areas of the hospital
- Liaise with the other clinical teams when necessary to facilitate the completion of the full treatment plan of patients in your care
- Ensure communication with clients is fulfilled either directly by yourself or delegated within the clinical team as necessary
- Communicate with clients to educate them in relation to the treatment and care of the patient
- Be polite and respectful when communicating with clients and all team members
- Report any stock deficiencies to the relevant personnel
- Report any faulty equipment to the relevant personnel
- Assist with patient pricing when requested to by the Senior RVNs or finance team
- To attend and actively participate in RVN meetings
- Assist in the reporting of clinical errors in order to promote a culture of transparency and assist with hospital improvements
- Maintain precise patient records through accurate notes
- Work by the practices outlined in the standard operating procedures (SOPs)
- Work in accordance with the Aura protocols and policies
- Follow employment handbook policy

Health & Safety

- Be aware of, and conversant with, the Health and Safety At Work Act (1974) and comply with the regulations set down to ensure safety to patients, staff and visitors
- Ensure a robust Infection Prevention and Control policy is in place and adhered to by all staff and visitors.
- Assist with the implementation Health and Safety/Infection control audits, producing rectification plans as needed.
- Ensure all incidents and untoward occurrences are recorded according to Hospital Policy

- Be aware of, and conversant with, the Hospital Fire Policy and be fully aware of the position of fire alarms, emergency equipment and exits.

Governance

- Assist the Clinical Director and Nursing Manager in ensuring compliance with risk assurance processes including: health and safety, security, clinical governance, Royal College of Veterinary Surgeons (RCVS) guidelines, and data protection.
- With the Nursing Manager, implement and embed a culture of prevention through education
- Assist in the completion of clinical audits; e.g. audits of inpatient notes.

Infection Control

Infection prevention and control is an essential aspect of patient care. All post holders have a personal obligation to act to reduce Hospital Acquired Infections. Post holders must be familiar with the Hospital's Infection Control Policies, including those that apply to their duties such as the Dress Code Policy. Post holders must incorporate into their clinical activities up to date evidence that supports safe infection control practices and procedures, for example, the use of aseptic techniques and the safe disposal of sharps.

Confidentiality and Disclosure of Information

During the course of your work, you will come into possession of confidential information concerning patients, their families, AURA Veterinary and its staff. This information should be treated confidentially and in accordance with General Data Protection Regulations (GDPR) 2016.

Data/Security

The post holder is responsible for ensuring he/she maintains the integrity and quality of both computerised and manual data

This job description is intended as a basic guide to the scope of the duties and responsibilities. It will be subject to regular review and amendment as necessary.
